| Purpose  |  |             |        |       |  |  |
| The purpose of this report is to provide the Board of Directors with a summary of performance across the Trust live from the new Integrated Performance Dashboard in the Trust Information Gateway (TIG).  |  |             |        |       |  |  |
| The position reported to the Board follows presentation at each of the sub-committees of the Board during January and February 2022.   |  |             |        |       |  |  |
| <b>Executive Summary</b>   |  |             |        |       |  |  |
| The Integrated Performance Report provides a summary of performance across operational, quality, workforce and financial metrics. The report provides an in-month and YTD position.  |  |             |        |       |  |  |
| In December 2021 the NHS declared a national Level 4 incident and subsequently NHSE/I issued further guidance to Trusts on reviewing reporting and governance requirements in order to respond to and support operational demand.  |  |             |        |       |  |  |
| The Trust has therefore established streamlined governance arrangements aimed at ensuring the appropriate assurances are provided and risks are appropriately escalated, whilst also supporting operational teams and services to respond to the requirements of the Level 4 position. Through the establishment of these arrangements, the Integrated Performance Board has been temporarily paused with performance monitoring overseen at ELT and the sub-committees of the Board. The Trust has also established an interim command structure which is monitoring operational service delivery and risks three times per week. |  |             |        |       |  |  |
| The quality governance framework remains in place across the Trust.  |  |             |        |       |  |  |
| The Integrated Performance Dashboard will be presented 'live' at the meeting of the Board of Directors to provide an update on Trust performance across all domains.   |  |             |        |       |  |  |
| Risks and opportunities: The performance framework is being managed in the context of the Level 4 incident however streamlined governance arrangements have been established to support this.  The Integrated Performance Dashboard provides an opportunity to review operational risks live   |  |             |        |       |  |  |
| from Datix including risks by age profile.  There are no risks to escalate to the Board of Directors.  |  |             |        |       |  |  |
| Quality/inclusion considerations: Quality Impact Assessment completed and attached No Equality Impact Assessment completed and attached No Not applicable for the IPR.  Financial/resource implications:   |  |             |        |       |  |  |
| None identified.   |  |             |        |       |  |  |

**Trust Strategic Objectives**
