

## **Appendix 1**

### **Learning from Deaths Q3 24/25 Report**

The following data represents the high-level reporting of deaths which occurred within our services over the period of Quarter 2 2024/25.

A more detailed report has been ratified and approved by the Quality and Safety Committee as per the Learning from Deaths Policy.

There were 6 adult, and 7 child deaths reported during this quarter, which followed the appropriate investigation processes.

There were 13 deaths reported to the Trust, and all have been reviewed in accordance with Trust policy. Of the deaths reported in Q3, after investigation, none of these were within scope of this report as none were caused by gaps or omissions in care provided by the trust. Learning was identified and discussed and shared with relevant teams and services both internal and external to the trust. Duty of Candour was not applicable to any of these cases.

We continue to promote shared learning across the health sectors and work collaboratively with our system partners to improve care within all the communities in which we provide services, focusing on addressing health inequalities on a population-based approach.

**Dr Eddie Roche**

Interim Executive Medical Director  
Wirral Community Health and Care NHS Foundation Trust
