ourPlace

Your... **confidentiality**

To give you the best advice, care and support we need you to provide us with personal information about yourself, and about your visit to clinic.

We keep it on a secure system. This can only be accessed by our staff.

Our staff follow strict rules to keep your information safe.

ourPlace

Your... **confidentiality**

We may need to discuss you or your care with a GP or healthcare professional if we:

- are unable to contact you by your chosen method of communication
- need to provide a test result
- feel there is harm to you or somebody else. This is to help protect your health and wellbeing

Sexual Health Wirral complies with Wirral Safeguarding Children's Board Statutory Safeguarding Procedures.

ourPlace

Consent!

Sexual consent means actively agreeing to take part in a sexual activity.

This might be touching kissing, oral sex, vaginal sex or anal sex.

Consent from **both** partners is needed before taking part in any sexual activity.

Doing something sexual to another person **without** their consent is **sexual assault** or **rape**.

ourPlace

Condoms

The one accessory you can't be without...

- protects against sexually transmitted infections (STIs) and unplanned pregnancy
- **free** to collect from any of our clinics

ourPlace

Emergency contraception

You can access free emergency contraception from pharmacies across Wirral.

Conditions apply and the pharmacist will decide whether they can see you or whether they need to fast-track you to our clinic. Telephone ahead of attending to check you can be seen.

Scan the QR code to find a pharmacy near you.

Think... Chlamydia!

Chlamydia is the most
common bacterial STI
among young people.

Get tested today.

ourPlace

Think Chlamydia!

Chlamydia often has no symptoms, that's why it's important to get tested!

- Chlamydia is easy to treat but can cause serious health problems if left untreated.
- Testing is quick and simple, just a urine sample or a swab.
- You can get tested for free at ourPlace, your GP or 16+ can order a free postal test kit.

Don't wait, protect yourself and others.

To get tested scan the QR code.
